

Notice to Municipal Partners and Contracted Haulers

Regarding Debris Hauling Requirements

Given the high volume of post-Irma debris that municipal public works departments and private contractors are or will be hauling during this critical recovery period, Miami-Dade County reminds you to be sure to cover all loads during transportation to staging and disposal sites.

Miami-Dade County Code Sec. 15-7, the “Requirement to secure transported solid waste or recyclable material” reads:

It shall be unlawful for any person to haul, convey, or cause to be hauled or conveyed, any solid waste or recyclable material upon or along public streets, roads or alleys except when the material transported is adequately secured in such manner as to prevent the material from falling or being blown from the transporting vehicles.
